OUR MISSION STATEMENT

The Shaw Perkins mission is to provide a full line of long lasting, high quality, American Made security products. The Shaw Perkins line of security guards were designed to be tamper proof, people resistant, and capable of enduring the most challenging of environments while still providing years of service. We want to continue making products that set the industry standard for tough, properly designed fixture.

ABOUT US

Veteran Owned Business

Shaw Perkins started in 1904 on West Washington Street in New Castle and manufactured a wide line of security heating solutions as well as tamper proof guards. In 2000 SP was bought by Jim Hill and its machines moved to their current location at The Hill Industrial Complex. A Vietnam Veteran, Mr. Hill started The Hill Railroad Car Co in 1989, and was a leader in the railcar repair industry until his retirement in 2020. These days Jim is focusing on Shaw Perkins and Rex Fabricating, our in house fab shop.
